1 Light Wall Light - Black

This 1 light bulkhead wall light is rated IP54 for protection against water ingress. It can be used on all exterior walls, even in coastal locations, as its robust Black powder-coated aluminium construction and opal polycarbonate shade can handle the harshest of environments. When illuminated, a warm glow is emitted from both the domed shade and from the opal polycarbonate ring hiding behind the aluminium front plate, which creates a beautiful halo of light on the wall.
